RUSSIAN FLEET IS DEFEATED BY JAPS

Twelve Warships Have Been Sunk or Captured.

THEY COMPRISE BEST OF NAVY

The Slower Ships Were Sent to Vladivostok—Russian Battleships Borodino and Alexander III Are Destroyed. Two Defense Ironclads Captured.

Special to The Daily Sun.

Tokio, May 29, 2:50 p. m.—In the naval battle fought on Saturday in the straits of Korea all the Russian battleships, Borodino and Alexander III, the armored cruisers Admiral Nakahir, Dmitriodonski and Vladimir Monach, the coast defense ironclad Admiral Oushakoff, the protected cruisers Pietlana and Jemotuchig, the repair ship Kamchatka and the cruiser Irtys, were sunk. The battleships Orel and Nicholas I, and the coast defense ironclads Admiral Seniavin and General Admiral Upraxine were captured. The Japanese cruiser and ten torpedo boats are reported lost.

News from St. Petersburg.

St. Petersburg, May 27.—1:10 p. m. The tension in naval circles is very great. News of the meeting of the Russian and Japanese fleets is expected hourly. The dispatch from Tokio of the Associated Press saying it was rumored that the fleets have already engaged in the straits of Korea, aroused intense interest at the admiralty, but nothing confirmatory had been received there up to the time of this dispatch was filed. The majority of the officers were inclined to doubt the accuracy of the Tokio report, believing that Rojstvensky with his fighting ships is heading northward for the eastern part of Japan.

Others on the contrary consider it quite likely that Rojstvensky after passing out into the Pacific, doubled back through the Luch Islands and will take the straightest course for Vladivostok. Rojstvensky, they point out, is a believer in strategy and mystification, and his cruise in the peace has not been only to avoid the danger of mines and torpedo attacks in the shallow waters of the straits of Korea, but to drive the Japanese into the belief that his objective was the Tsugaru or LaProuz straits, and in reality he changed his course and headed for the straits of Korea. As a matter of fact, Rojstvensky was to have mystified his own admiralty as much as the Japanese.

Britisher Sights Russian Squadron.

Hong Kong, May 29.—The British fleet commander, Sir Kitchin, reports having sighted early in the morning of Wednesday, May 24, 45 Russian vessels, including battleships, cruisers, torpedo boat destroyers, colliers, a hospital ship, and tugs, 140 miles westward of the Saddle Islands.

The Russians were stationary when sighted and most of the colliers were half empty. Subsequently the Russian vessels steamed away heading in a north-northeasterly direction.

Small Engagement Reported.

London, May 27.—1:45 p. m.—Imperial headquarters made the following announcement today:

May 26 our cavalry in driving force of Russian cavalry northeastward occupied Hsuencheng, 18 miles north of Chang Tu. Otherwise, with exception of small collisions between detached parties on both sides the situation is unchanged.

Wits Ugan Being Hanged.

London, May 27.—The attorneys for Wits Ugan, sentenced to be hanged for the murder of John Williams, are in a strange predicament. They would like to have the sentence commuted to life imprisonment, but Williams' fans are upon them. All efforts of the attorneys to get the prisoner to agree have failed.

RAILROAD BRIDGE BLOWN UP.

Dynamite Is Supposed to Have Been Used—Cause Unknown.

New York, May 29.—A new Pennsylvania railroad iron bridge across the Hackensack river in Jersey City was blown up apparently by dynamite early today. The noise was heard throughout Jersey City. No one was hurt. No definite information has been obtained as to the cause of the explosion.

The new bridge spanned the Hackensack meadows from the foot of Newark avenue, Jersey City, and when completed would have been 400 feet long. The old bridge now in use stands 600 feet away and was not damaged.

While there is no motive of the action otherwise than pure malice, it is believed by the police who are now at work on the case that the explosion was caused by some person who rowed out under the structure in a boat. No estimate of the damage has yet been made.

Kaiser William Returns to Berlin.

Berlin, May 29.—Emperor William returned to Berlin today after nine weeks' absence from the capital. He looked well and was cheered by the people as he drove to the palace. The empress' private car was detached from the Wiesbaden train at Wild Park station. Her majesty was deeply veiled so as to conceal the bandages covering the injuries on her head sustained at Wiesbaden. The emperor during the day unveiled a statue of Emperor Frederick at Charlottenburg in commemoration of the two hundredth anniversary of the founding of Berlin's largest suburb.

Ocean Liner Passes Yachts.

London, May 29.—The American line steamer St. Louis, from New York, May 29, which passed the Lizard at 8:05 a. m. today reported to the Associated Press by a Marconi wireless dispatch that she passed successively Monday, May 22, the schooner yacht Endymion, the yawl Alisa and the schooner Hamburg between 12 p. m. and 7:50 p. m. The Hamburg was then 980 miles east of Sandy Hook lightship. The Endymion and Alisa were 843 and 845 miles respectively east of the same lightship when passed by the St. Louis.

Vice President at Portland.

Portland, Ore., May 29.—On his arrival in this city today to attend the opening ceremonies of the Lewis and Clark centennial exposition, Vice President Fairbanks will be met at the Union Depot and under the escort of two troops of the fortieth cavalry and a mounted band will proceed to the Hotel Portland where he will register. From the hotel the vice president will proceed under the same military escort to the residence of President Goode, of the exposition, where Mr. Fairbanks will be the guest of Mr. Goode during his stay in this city.

Negro Confesses Murder.

Birmingham, Ala., May 29.—Jim Walker, Jr., a negro, has confessed to the brutal murder of Merchant W. T. Hill, who was assassinated several weeks ago, and implicates his father. There was a small matter involved. Young Walker says his father commanded him to fire the first shot and the old man fired the second, while Hill was begging for life. Elder Walker was also arrested.

Brain Pierced by Pitchfork.

Kenton, Ohio, May 29.—Leo Miller, aged 4 years, was almost instantly killed at Ridgeway. Eva Miller, a little girl, climbed into a hayrack, and Leo was hanging by a pitchfork, prongs downward. She caught it by the handle, but let it fall, the prongs striking the top of his head, piercing the brain.

UNFAVORABLE TO A UNION.

Southern Presbyterians Fail to Agree on Proposition.

Fort Worth, Tex., May 29.—The forty-fifth general assembly of the Southern Presbyterian church adjourned. Moderator Plunkett declared the convention dissolved and at the same time called the next meeting to be at Greenville, S. C., at 11 a. m. on the third Tuesday in May, 1906.

The discussion of the question of federation with other branches of the church was long drawn out and when the end came it was as far from a final settlement as at any time during the debate, which preceded the vote. There is an irreconcilable element in the church that forcefully manifested itself, which is opposed to federation and there is an element slightly stronger that favors it, but neither side could muster the necessary strength to definitely settle the matter.

Northern Presbyterians Adjourn.

Winona Lake, Ind., May 29.—The general assembly of the Presbyterian church completed its one hundred and seventeenth annual session today and adjourned. Routine matters such as the reports of the committee on narrative and judicial affairs occupied the closing session. Many of the commissioners left for their homes last night and on early morning trains today. About 300 commissioners will remain here over Sunday, not wishing to travel on that day. As there will be a very large amount of committee work during the next year, arrangements were made today for the several meetings. There are 20 special committees in addition to the standing committees and some of those have a membership of over 20.

FARMERS' UNION ADJOURN.

An Organization Has Been Completed in State of Georgia.

Thomaston, Ga., May 29.—The national convention of the Farmers' Educational and Co-Operative Union of America closed and the delegates have returned to their homes.

The state union will meet in Atlanta in October. State unions have been organized in Texas, Indian Territory, Oklahoma and Georgia, Alabama, Mississippi, Missouri and South Carolina will soon be organized.

This organization now numbers 250,000 of the farmers of the country.

C. S. Barrett, R. F. Duckworth and Captain F. J. Vining were elected as delegates to represent the Georgia union in the national convention, to convene in Texarkana, Sept. 7.

Thomaston will be permanent state headquarters for the state union.

Negro Held Sheriff at Bay.

Asheville, N. C., May 29.—After he had held off the sheriff of McDowell county at Old Fort last night with a loaded shotgun, Nat Crump, the negro who shot and seriously injured H. Clay Grubb from ambush at Salisbury last Monday, started toward Asheville, and when he was about 3 miles from the city he was seen, and was later reported to be in hiding in the negro quarter of the city. Six policemen, with loaded shotguns, surrounded the house. Crump, however, got wind of their coming and disappeared. The police are patrolling all sections of the city this morning in search of the outlaw for whose capture, dead or alive, a reward of \$750 is offered by the Salisbury authorities.

Bather Drowns at Tybee.

Savannah, Ga., May 29.—Walker Cutts, son of Mr. and Mrs. E. A. Cutts, was drowned at Tybee Island this afternoon while surf bathing. Because of the prominence of the family, the universal esteem in which they are held and the personal popularity of the young man, the city is plunged in grief by the occurrence. At a late hour last night the body had not been recovered, though many were patrolling the beach with lanterns, looking for the sea to cast up its dead. The town is talking of the brave effort of a lady bather, a Rebekah delegate to the Odd Fellows' convention, to rescue Cutts. She swam out to him, but was unable to bring him to shore.

EXAMINING SCHOOL CHILDREN.

Fifty Per Cent Show Some Physical Defect.

New York, May 29.—Physical examinations of school children in the primary grades made by inspectors for the board of health have produced statistics showing that more than 50 per cent of the pupils are suffering from defects.

The work of examining pupils is not yet finished. According to the commissioner of health this condition is not so alarming as the figures seem to indicate, because a majority of the ailments are of a minor character. The largest figures for any complaint were those of defective vision, but the records for bad nutrition, pulmonary and heart ailments were much greater than the experts believed they should be.

Methods are being employed by the department to extend aid and suggestions to the parents wherever possible.

FLOODS IN OKLAHOMA.

Heavy Rainfall Cause of Much Damage to Crops and Railroads.

Lawton, Okla., May 29.—Five inches of rain fell in this part of Oklahoma during the night, causing floods that did more or less damage.

In Lawton the streets were flooded and water stood a foot deep in many business houses. Most of the streams are higher and several washouts are reported. The St. Louis and San Francisco railway bridge over the Red river in the southern part of Greer county is reported out.

At Junction City and Lone Wolf, Okla., and Duncan, I. T., some damage was caused by a heavy wind and several persons are reported injured. No deaths are reported.

Lived Ten Months With Broken Neck.

New York, May 29.—After lying in a Brooklyn hospital for almost ten months with a broken neck and injuries to his spine in which time physicians from all parts of the country have visited him, Thomas O'Brien is dead. When O'Brien, who was 22 years old, received his injuries in a fall, arrived at the hospital the surgeons ventured an opinion that he might live for a day or so, but instead of dying when they predicted, he grew stronger, and made a fight for life, which attracted much attention among members of the medical fraternity.

Alabaman Cuts His Throat.

Tuscaloosa, Ala., May 29.—Late last evening Daniel G. Moore aged thirty-three and from one of the best families in this city was found dead under the residence in which his parents lived. By his side was a pocketknife with which he had taken his own life by cutting his throat. Upon examination it was found that he had stabbed himself several times in the chest. Mr. Moore was in a railroad wreck in Colorado some months ago after which his mind has never been just clear.

Brokerage Firm Suspends.

New York, May 29.—The suspension of Holzman & Co., stock brokers, whose main office is in Cincinnati, and a branch in Chicago, was announced on the New York stock exchange today. The embarrassment of the firm became known on Thursday when their formal assignment was made in Cincinnati. Charles Henrotin, of Chicago, is the New York exchange member of the firm.

To Dine Ambassador Cheats.

New York, May 29.—A dinner to welcome Ambassador Joseph E. Choate on his return from London has been arranged by the Pilgrims of the United States. It will be given June 9 at the Waldorf-Astoria. President Roosevelt and his cabinet officers have been invited and many other public men are expected as guests.

Philadelphia Wrought Up Over Gas Work Lease.

SECRET CONFERENCE IS CALLED

Mayor Weaver Has Gained Considerable Support and in All Probability His Veto Will Stand—State Organization May Be Involved.

Philadelphia, May 29.—Organization leaders are responsible for the statement that the United Gas Improvement company has withdrawn its offer to advance the city \$25,000,000 in consideration of an extension of the lease of the city gas works. This, no doubt, is the outcome of the conference between Messrs. Durham, Seger, McNeel and President Dolan, of the United States Gas company today.

Mayor Weaver and the Republican "organization" leaders are exerting all their efforts, former to gain control of councils and the latter to prevent a sufficient number of defections from the "organization" ranks to sustain the mayor's veto of the gas lease resolution. When Mayor Weaver broke with the "organization" over the lease of the city gas works, it was not anticipated by any of those concerned in the fight that it would extend beyond the confines of the city. Developments during the past two days, however, indicate that the entire state organization is likely to become involved.

Since Thursday leaders from various other counties have been coming here seeking information and it is reported today that a call has been secretly issued from headquarters for a conference at Atlantic City, N. J. It is rumored that state and city leaders have been invited to attend the conference.

Mayor Weaver was today assured of the support of an additional select councilman, making 11 in that body who are said to be pledged to him. As divided up today council stands as follows on the gas lease proposition:

Originally voting against the lease, select 4, common 9, total 14.

Recruits against the lease, select 7, common 18, total 25.

Votes needed to sustain the mayor's veto, select, 17, common 34.

Japanese Colony for Texas.

Washington, May 29.—Japanese colonization is contemplated in Texas by a wealthy Japanese agriculturalist, who recently visited the United States according to a report submitted to the department of commerce and labor by Fred D. Fisher, the American consul at Tamsui, Formosa, who based his announcement upon recent publications in Japanese papers. The report says that 1,000 farmers are to be collected in Japan, and that as a first undertaking 9,800 acres will be cultivated in Paddy fields in Texas.

Electrical Devices for Railroad.

Chicago, May 29.—The Illinois Central railroad has begun to install an electrical interlocking device on 600 miles of the main line track and plans to extend it over the entire system as soon as possible. The device system consists of an electrical arrangement in each tower which prevents the operator from changing his own signals until the man in the next station releases the locks. Under the ordinary block signal the movement of trains has been controlled by one signal man at a time.

Leaves Estate Worth \$1,500,000.

Oakland, Cal., May 29.—The estate of the late Samuel T. Alexander, the Hawaiian sugar planter who died last fall in South Africa, has been appraised at \$1,450,000. Under the will \$100,000 is to be distributed among relatives. The remainder of the estate is to be divided among the widow and five children.

The Senate bill providing for kindergartens in the public schools was passed.

The joint resolution as passed by the Senate, fixing the salaries of supreme court judges at \$4,000 and the circuit judges at \$3,500 was passed.

JOYS OF MATERNITY

A WOMAN'S BEST HOPES REALIZED

Mrs. Potts Tells How Women Should Prepare for Motherhood

The darkest days of husband and wife are when they come to look forward to childless and lonely old age. Many a wife has found herself incapable of motherhood owing to a displacement of the womb or lack of strength in the generative organs.

Mrs. Anna Potts

Frequent backache and distressing pains, accompanied by offensive discharges and generally by irregular and scanty menstruation indicate a displacement or nerve degeneration of the womb and surrounding organs.

The question that troubles women is how can a woman who has some female trouble bear healthy children?

Mrs. Anna Potts, of 510 Park Avenue, Hot Springs, Ark., writes:

My Dear Mrs. Pinkham:—

During the early part of my married life I was delicate in health; both my husband and I were very anxious for a child to bless our home, but I had two miscarriages, and could not carry a child to maturity. A neighbor who had been cured by Lydia E. Pinkham's Vegetable Compound advised me to try it. I did so and soon felt that I was growing stronger, my headaches and backaches left me, I had no more bearing-down pains, and felt like a new woman. Within a year I became the mother of a strong, healthy child, the joy of our home. Lydia E. Pinkham's Vegetable Compound is certainly a splendid remedy, and I wish every woman who wants to become a mother would try it.

Actual sterility in woman is very rare. If any woman thinks she is sterile, let her try Lydia E. Pinkham's Vegetable Compound and write to Mrs. Pinkham, Lynn, Mass. Her advice is free to expectant or would-be mothers.

transporting freights, etc., was passed.

The Senate bill providing for a State uniformity of text-books was laid on the table. Mr. Johnston's bill met the same fate.

After passing up Speaker Gilchrist's primary election bill and disposing of minor local measures, the House adjourned.

DEATH OF MISS ROBERTSON.

One of Gainesville's Noblest Young Ladies Passed Away Sunday.

The numerous friends of Mr. and Mrs. W. H. Robertson and family express deep sympathy in their hour of bereavement, when God has lovingly called one of their members to Himself.

Margaret, aged twenty-six years, was born near this city in September, 1877, and passed away Sunday evening, the 28th inst., after an illness of four weeks.

The many friends and acquaintances of this young lady knew her loving, sympathetic nature; but in the home especially was the gentle influence felt. Dearly beloved and most loving, her memory there is fraught with actions of loving thoughtfulness and tender sympathy for those about her.

Deceased had been a consistent member of the Methodist church since early girlhood, and the funeral was conducted Monday afternoon by Rev. T. J. Nixon of Kavanaugh Memorial Church, and was attended by a large number of sorrowing relatives and friends. The floral decorations were as abundant as they were fragrant, showing the popularity of the deceased among friends, all of whom loved her for her goodness.

Deceased is survived by mother and father, three sisters and two brothers, to whom the sympathy of the community is extended.

Col. Robertson being county treasurer, as a mark of respect all county officers who could possibly leave their duties attended the funeral.

Strong patrols of cavalry and infantry are parading the city and all the public buildings are guarded by troops.

Growing Aches and Pains.
Mrs. Josie Sumner, Bremond, Tex., writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost-bitten feet, with good success. Boy Nailed Up in Freight Car.
Pittsburg, May 29.—Peter Armstrong, aged 16 years, of Chicago, was found in a freight car here in a starving and emaciated condition. He said he had entered the car at Buffalo last Friday. A short time later the door had been nailed up, and for six days he had been without food or water. When discovered the boy was too weak to stand up, but the physicians say he will be able to go home in a few days.

A Positive Necessity.
Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. Byrnes, merchant, Doverville, Tex., 25c, 50c and \$1. Sold by W. M. Johnson.

OLD PEOPLE

Their Pains and Ailments

Any taint of the blood quickly shows itself with old people, and troubles, which a younger, more vigorous constitution holds in check, take possession of those of advanced years. A mole, wart or pimple often begins to inflame and fester, terminating in a sore that refuses to heal. Wandering pains of a rheumatic character are almost constant, the joints get stiff and the muscles sore, while sleeplessness and nervousness make life a burden. The natural activity of the body is not so great in old age and all the organs get dull and sluggish, failing to carry out the waste matters and poisons accumulating in the system and they are taken up and absorbed by the blood, rendering it weak and unable to properly nourish the system. There is no reason why old people should not be as healthy as youth if the blood is kept pure and strong. S. S. S. is purely vegetable and is the safest and best blood purifier and tonic for old people, because it is gentle but at the same time thorough in its action, purifying the blood of all poisons and foreign matter, strengthening it and toning up the entire system. Almost from the first dose the appetite increases and the general health begins to improve and the pains and ailments pass away.

A MODERN MACHINE.

Stonewall Steam Laundry Giving Pa-
trons Service Up-to-Date.

Brothers, proprietors of the
Stonewall Steam Laundry, are ever
ready to the interests of their business
customers, with the result
they grasp every opportunity to
show the public what is the latest and
modern in their line.

enterprising firm has just in-
vaded a fine drop-board ironing ma-
chine, the effects of which can be do-
ne, medium or high gloss finish.
This laundry has been able to
achieve a high-gloss or
finish, which is not only hard
on clothing but unsatisfactory to
the customer. By the new machine, however,
a fine finish can be given which
the laundry the appearance of
"bought" goods—a style which
is prevalent in the more up-to-
date houses and cities. The firm did
not work with the machine last
week and every customer was well
served.

Deveneau, the efficient as-
sistant manager of the laundry, is the
operator of this machine, and he
operates it in a manner altogether per-
fect. From this date the laundry will
be the finest work of any steam
laundry in this section, and not only
the proprietors, but the public, has a
right to feel proud.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only
urinary and bladder troubles were to be
traced to the kidneys,
but now modern
science proves that
nearly all diseases
have their beginning
in the disorder of
these most important
organs.

The kidneys filter
and purify the blood—
that is their work.

Therefore, when your kidneys are weak
or out of order, you can understand how
quickly your entire body is affected and
how every organ seems to fail to do its
duty.

If you are sick or "feel badly," begin
taking the great kidney remedy, Dr.
Kilmer's Swamp-Root, because as soon
as your kidneys are well they will help
all the other organs to health. A trial
will convince anyone.

If you are sick you can make no mis-
take by first doctoring your kidneys.
The mild and the extraordinary effect of
Dr. Kilmer's Swamp-Root, the great
kidney remedy, is soon realized. It
stands the highest for its wonderful cures
of the most distressing cases, and is sold
on its merits by all
druggists in fifty-cent
and one-dollar size
bottles. You may
have a sample bottle
by mail free, also a pamphlet telling you
how to find out if you have kidney or
bladder trouble. Mention this paper
when writing to Dr. Kilmer & Co., Bingham-
ton, N. Y. Don't make any mistake,
but remember the name, Swamp-Root,
Dr. Kilmer's Swamp-Root, and the ad-
dress, Binghamton, N. Y., on every bottle.

Is no more dangerous than to neglect
kidney disorders. Foley's Kidney Cure
corrects irregularities and has cured
many severe cases after other treat-
ment has failed. It builds up the worn
out tissues and restores health and
vigor. "I was troubled with kidney
complaint for about two years," writes

"but two bottles of Foley's Kidney
Cure effected a permanent cure." Sold

In Colman's Court.

There was an interesting session of
Justice Colman's court Monday, which
was a sensational one as well. The
case was one in which John Thomas, a
married man, had been charged with
relations which would not do to go into
print, with his daughters, one thirteen,
the other eleven, and the Justice nat-
urally bound him over to the circuit
court without bail. He will be dealt
with according to law and order at the
proper time, and justice will get its re-
ward.

merit and popularity of Foley's Honey

IN MAYOR'S COURT.

Two Colored Men Arraigned and Fined
for Cruelty to Animals.

Nathan Robertson and Frank Dam-
sey, two colored men, were arraigned
in the mayor's court yesterday for al-
leged cruelty to animals. Robertson
was fined \$5 and costs, aggregating
\$8.35, while Damsey came out some-
what lighter, his fine and costs only
amounting to \$8.85.

Social Postponed

Washington Camp No. 8, Patriotic
Order Sons of America, were to have
given a social entertainment for the
benefit of its members and friends
Wednesday evening, but owing to the
serious illness of W. R. Anderson, sec-
retary of the order and a prominent
member, the same has been indefinite-
ly postponed. Mention will be made
later.

MIDDLE AGED FOLKS.

The Change Which Has Come Over
the Spirit of the Times.

In the middle of the nineteenth cen-
tury a man of forty-five was regarded
almost elderly, and a woman of the
same age was expected to have long
since cut herself adrift from all ties
binding her to her youth and to assume
the appearance and deportment of a
staid, exemplary matron. All this has
changed in a particularly interesting
way, of which the prominent feature is
a seeming contradiction. If the three-
year-old child of today is as knowing
as was the six-year-old of half a cen-
tury ago, and the ten-year-old boy of
today is in many respects quite as
much a man as was his grandfather at
eighteen, one might naturally expect
that in due gradation the modern mid-
dle aged man should be old beyond his
years. But such is not the case.

Middle age, so far from hurrying on
into senility, so far even from standing
still, would seem actually to have stepped
backward and marched alongside
of youth. There is a jaunty, a buoyancy,
an elasticity, about the mid-
dle age of today at which our fathers
would have shaken their heads as un-
seemly. The gulf which once separated
the middle aged parent from his
children has been filled up. The cur-
tain which shrouded the middle aged
man generally from the eyes of youth
and which caused him to be regarded
with respect if not with awe has been
lifted, and in obedience to the same in-
fluences which have made the school-
master the friend of the schoolboy and
the regimental officer almost the com-
rade of his men the middle aged man
of today is never so happy as when
working or playing upon an equality
and actually in competition with youth.

As with men, so it is with women.
Social statisticians tell us that the age
at which women are considered most
eligible for marriage has been very not-
ably advanced of late years, and we
know that the lament of many a match-
making mamma is that the most dread-
ed rivals of her darling are not to be
found so much among the girls of her
own age as among women who not
many years ago would have been re-
legated to the ranks of hopeless old
maidhood. The fact that the middle
aged woman of today is much younger
in manner and tastes is, of course, not
the only reason for this, but it is among
the most potent.—London Spectator.

The city of Gainesville will stand on her merits against any other city in Florida. For growth and enterprise there are none that surpass her; for law-abiding citizens she stands at the head. The city government is in the hands of thorough business men, and her future prosperity is assured.

One of those sanitariums located at Battle Creek, Michigan, in advertising its wonderful qualities as a place for invalids to regain their health, takes occasion to give the South a bad name as being a fever infested region, and advises people to their great cure-all institution. The eminent (?) physician in charge must be somewhat behind the times or he would know that typhoid is more severe in the North than in the South. It is a good plan to advertise, but the advertiser should always tell the truth. The mistreatment of patients, and the Battle Creek sanitariums may be famous, but their greatest specialty is to relieve people of their money.

DECORATION DAY.

This is the day—May 30th—set aside by the members of the Grand Army of the Republic to do honor to their fallen comrades, when the cemeteries of the country are visited and their graves are strewn with flowers. In many cemeteries are the graves of Confederate soldiers, which are remembered and their last resting place as tenderly remembered. As the years go by the bonds of brotherhood are drawn closer together and the blue and gray unite and march side by side to the places where sleep the honored, all past differences are forgotten and the hands that gently drop the wreath of flowers on the grave of a father or brother turns aside and bedecks the grave of a brother from the Sunny South in a like manner, unmindful of the past.

The New York Mail of a recent date has the following which shows the sentiment that now exists:

"The Confederate Veterans have discovered where the wreaths came from that have for several years been placed on Memorial Day at the foot of the monument dedicated to their dead in Mount Hope Cemetery. They came from Lafayette Post and Alexander Hamilton Post of the Grand Army of the Republic. Union soldiers lie buried near the Confederate dead, and each year as the Northern veterans honored their own comrades they secretly remembered the men who had been their enemies a generation before. Southern men and women yesterday learned of it while they were attending a service at the cemetery and they saw to it that their own flower tributes covered the graves of Union dead.

"An appealing incident in itself, and more appealing in what it stands for. What it stands for is the fact that the chasm of sectional bitterness has been closing of itself from the bottom of feeling; it has not merely been bridged by fair words at the top. The measure of reconciliation between the blue and the gray has always kept well ahead of the conscious recognition of it. The token of amity restored, almost effusive as some of them have been, are less than the fact. 'The flowering moments of the mind drop half their petals in the church.' Those flowers, half stealthily laid beside the Confederate memorial shaft, carried a good will beyond the ability or desire of their givers to put into speech.

"That is the way the rest of us feel about it when we take stock of our sentiment in the days preceding Decoration Day. We are proud of the blue and gray alike, and, reluctant to put the whole of the sentiment in speech, we make it the message of May's blossoms."

GOOD ROADS MEETING.

Dear Sir: The annual meeting of the County Commissioners and Good Roads Association of Florida will be held in the city of Orlando, Tuesday, June 20, 1905.

Every board of county commissioners in the State should appoint delegates at once, and if possible the entire board should attend this important meeting.

A special invitation is also extended to all public officials and citizens interested in the question of improved highways.

In addition to the reports from the various counties, discussions and papers read, the commissioners of Orange county will have their entire road-making outfit located near Orlando that the delegates may have an opportunity of seeing how roads are built in this prosperous section of the State. Representatives of road machinery concerns will be present.

An appropriate program of entertainment will be provided by the Orange County.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

A Living Monument.

If we were to assemble all those who have been cured of heart disease by Dr. Miles' Heart Cure, and who would to-day be in their graves had not Dr. Miles' been successful in perfecting this wonderful heart specific, they would populate a large city.

What a remarkable record—a breathing, thinking, moving monument, composed of human lives,—that for which every other earthly possession is sacrificed.

The Miles Medical Co. receive thousands of letters from these people like the following:

"I feel indebted to the Dr. Miles' Heart Cure for my life. I desire to call the attention of others suffering as I did to this remarkable remedy for the heart. For a long time I had suffered from shortness of breath after any little exertion, palpitation of the heart; and at times terrible pain in the region of the heart, so serious that I feared that I would some time drop dead upon the street. One day I read one of your circulars, and immediately went to my druggist and purchased two bottles of the Heart Cure, and took it according to directions, with the result that I am entirely cured. Since then I never miss an opportunity to recommend this remedy to my friends who have heart trouble; in fact I am a traveling advertisement for I am widely known in this locality."

A FATAL TRAGEDY AT HIGH SPRINGS

One Man Terribly Beaten, After Which He Killed Two.

PARTIES ARE WELL KNOWN

Will Martin Was Engaged to a Young Lady, Which Met Disapproval of Her Uncle—Uncle and Stepson Met Him in Road With Serious Results.

High Springs, May 29.—Yesterday afternoon about 5:30 o'clock news was received here of a tragedy which occurred about four miles west of town on the Fort White road, in which I. L. Mizelle and Pete Reddick were killed by Will Clark, all of High Springs.

Clark's account of the affair is that he and a niece of Mr. Mizelle were engaged to be married in June against the latter's will, and on account of the opposition the young lady found life unbearable under her uncle's roof. Yesterday morning Clark carried her to Fort White, where she intended remaining until he could procure a marriage license today and hasten the ceremony. On his way home from Fort White in company with O. Pratt, Clark was met by Mizelle and his stepson, Reddick, who said they were looking for him and were going to beat him to death. They proceeded to carry out their threat and in the scuffle Clark got hold of Reddick's pistol and fired three shots, killing them both instantly, two shots taking effect on Mizelle and one on Reddick. Clark came into High Springs and wired the sheriff of Columbia county he was ready to give himself up.

There are conflicting rumors as to the details of the affair and all the facts will be brought out at the inquest today at Fort White, as we understand that there was more than one witness to the shooting.

Deputy Sheriff Jordan of Fort White came over Sunday night and carried Clark back with him.

The bodies were brought here this morning and turned over to Undertaker Summers.

Mr. Mizelle leaves a wife and several children and Mr. Reddick leaves a wife to mourn their sad and untimely death. Both were well known here, Mr. Mizelle having supplied the town for some time with beef cattle and Mr. Reddick owned and operated a meat market in town.

Latest Report.

High Springs, May 29, 11 p. m.—Information from Fort White says that a man named Pratt was with Clark at the time of the shooting and was arrested, but was released. Clark was held over for the grand jury of Columbia county. Many rumors have been afloat, and Pratt was suspected of doing the shooting. The bullets did not enter from the front.

The funeral services of the dead men were held in the Methodist church here this afternoon and were largely attended.

F. M. Hartman of Paradise called at The Sun office on Monday, accompanied by J. H. Martin of Farmersville, Ohio, who has been spending several weeks at Mr. Hartman's in the hope of recuperating his health. A. W. Beal and Philip Roads of the same place came with him and they left for their Ohio home on Monday. Mr. Martin said he was very much pleased with the country and would return in a short time to take up some land here. He is something of a joker and said he would not be in such a hurry to go home, only that his companions desired to return and he felt it his duty to accompany them to keep them out of trouble, as they had only been in the country a short time when he saw them. A deputy sheriff and he didn't know what might happen to them if they were without some one older to look after them. One of the party, however, is about twenty-five years his age.

They hope to see them all back to this country as they are thrifty farmers and will make the class of citizens we want.

(No. 1. Look for No. 2 next week.)

The Cradle

A happy mother who looks for the first time into her baby's eyes has realized life. It may be that she has given strength and health for the treasure.

She may be weak and "run down."

She needs her strength for baby's sake as well as her own.

A new home has been started and a strong mother is the bulwark of that home.

Death at Fort Meade.

Information has reached this city of the death of L. Hickman Johnson, formerly of Micanopy, which sad event occurred at his home in Fort Meade on Friday night of last week of apoplexy of the heart.

Deceased was well known in Micanopy, where he resided for many years. He married a daughter of Capt. Powell of that town. At the time of his death he was a prosperous merchant at Fort Meade.

Friends of the family will extend sincere sympathy in their sad hour of bereavement.

A National Holiday.

Today being a national holiday, Federal Memorial Day, the postoffice will observe Sunday hours, the general delivery being open from 1:30 to 2:30 p. m. There will be only one delivery in the afternoon.

The United States land office and banks will observe the holiday and will be closed during the day.

A Good Suggestion.

Mr. C. E. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in hot water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by all druggists.

New Method of Extracting Resin.

Selma, Ala., May 27.—William Gill, a wealthy citizen of Selma, has made a discovery that places an immense fortune within his grasp. For many years experiments have been going on by which resin could be extracted from the pine without injuring the timber. Mr. Gill is one of those who have been studying the question and at last hit upon a process that has proved successful. By his process the timber is not only perfectly preserved, but a superior quality of resin is secured.

Wants Protection.

Jackson, Ky., May 26.—Judge Reagan, of the Breathitt circuit court, has under consideration the petition of Mose Feltner for troops to protect him when he appears at Jackson for trial for the murder of Jesse Fields, but has not announced a decision yet. The time for the prisoner's appearance has been deferred until Monday, in order to give time to investigate.

Texas Visited by Cyclone.

Haskell, Tex., May 26.—The northwestern part of this county was visited by a cyclone and fourteen houses were destroyed. The two children of Will Towns, near Marcy, were killed, and Mrs. Towns was found unconscious and will die. Many people who lived in the path of the storm were at church or the loss of life might have been greater.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson.

PUNISHED BY PROMOTION.

Curious Laws That Prevailed in the Florentine Republic.

The Florentine republic had a unique method of dealing with its too ardent democrats. In 1293 the state passed the famous "Magna Charta of Florence," to curb the cruelty and rapacity of the lawless nobles, who, in defiance of the law courts, were accustomed to flog and torture their dependents at will. The act practically disfranchised these titled harpies by a clause which excluded them from the signory—a body in the state corresponding to the British cabinet—unless they renounced their nobility.

This curious provision prepared the way for a still more extraordinary clause, which enacted that any member of the democratic party who made himself obnoxious to the government and was by them declared to be "guilty of treason to the commonwealth" should be given a patent of nobility and thus at the same moment be raised in the social scale and reduced to a political nobody at the will of the state.—London Telegraph.

Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandes of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

Getting Rich Slowly.

Ordinarily a great fortune is built up like a stone wall—a stone at a time. The young man who declines to lay the first stone because it comes so far short of a wall will never make progress in financial masonry. An immense proportion of the people of this country live up to their incomes, laying aside nothing for the traditional rainy day. Because they cannot save \$1,000 in a bunch they save nothing. The greatest financial kings of the world have not been above taking care of the pennies even. The great financial institutions look after even the fractions of pennies.—Troy Press.

Had to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these tablets to be just what you need. For sale by all druggists.

separately. For every gallon of Kinloch Paint buy one gallon of linseed oil. This makes two gallons of paint, ready for use. BUILDING TRADES WITHDRAW SUPPORT

Striking Teamsters Meet With
Financial Difficulties.

MAY SPREAD TO OTHER CITIES

Largest and Strongest Union in Chicago Withdraws Its Moral and Financial Help from the Strikers May Mean End of Trouble.

Chicago, May 29.—Attention of strikers and employers was centered largely today on the effect of the action of the associated building trades, accounted the strongest labor body in Chicago, and representing in its membership upwards of 18,000 Union Workmen. This body having withdrawn both moral and financial support from the teamsters cause, the first effect will be to cut off nearly \$1,000 a week from the strikers' funds. The subsequent effect is problematical, many thinking it means the first break in the struggle, the beginning of the end.

In any event, it seems to check the peril to the whole building industry of the city—a situation which had become one of the great problems of the strike. Further, this withdrawal of financial support is particularly trying at a time when the finances are a serious problem. The response to the request to for contributions from the country at large has, it is alleged, not been up to expectation, and with a daily expense of \$10,000, financial stringency may be the rock on which the strike will be wrecked.

As a result of the teamsters' strike a new low record in the price of coal as compared with previous periods of depression during the past ten years has been established. This applies to the coal situation generally in the western trade, according to the Black Diamond. The retail trade in anthracite in Chicago is feeling the effects of the teamsters' strike to a greater extent than was expected, due to the duration of the industrial troubles.

Extraordinary efforts are being made by some of the dealers to secure business. Long time credits are being given by dealers to induce consumers to take in coal and in some cases the prices are below those which the retailers should have obtained for his product in April. These irregularities will further complicate the situation unless the strike is ended shortly and consumers begin to take an interest in their future requirements.

The spread of the strike of the express drivers to other cities is a new element in the situation. The trip of business agent James Barry of the express drivers to New York has caused the idea to be given credence. Some of the labor leaders say that Barry's trip to New York will be for the purpose of obtaining funds for the striking men in Chicago. Fifty picked men from the express drivers have been directed by the union to go to 50 large cities of the country and a demand may be made by every express wagonmen's local that the Chicago men be reinstated or a general strike directed against all express companies.

Why Suffer From Rheumatism?

Why suffer with rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

Unique Appeal of Editor.

Union Springs, Ala., May 29.—Editor J. C. Lawrence, of the Bullock County Breeze, has a somewhat sensational letter in this week's issue of his paper addressed to Andrew Carnegie, millionaire and philanthropist, asking that he contribute something for "the 200,000 white children in the south between the ages of 10 and 18 years who are illiterate," and adds to this request an appeal for a donation of \$500,000 for the purpose of establishing a weekly newspaper, to be known as the Carnegie News, to be circulated throughout the south for 10 cents a year.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and lagrippe. At drug stores, price 50c and \$1.00; guaranteed. Trial bottle free.

Train leaves Gainesville at 6:30 a. m., returning at 9:30 p. m., and affording a whole day at this favorite resort. Spend a while at White Springs, the leading health resort of the State. On the far-famed Suwannee river. The Gainesville and Gulf offers the following low round-trip rates from Gainesville: Sunday only, \$1; ticket good going Saturday and returning Monday, \$2.50; ticket good for fifteen days, \$3. H. D. Wood of Evinston, a clever fellow and prominent trucker of that place, was transacting business in this city yesterday. He states that rain is badly needed in that section, and that the cantaloupe crop is suffering for the want of it. A great deal of the crop is affected by rust, and the crop as a rule will be late. The same may be said of watermelons.

Mrs. F. A. Taylor, wife of Rev. F. A. Taylor of Maitland, arrived in the city yesterday attended by her daughter, Mrs. Chas. Wilkins of Norfolk, Va. They are domiciled for the present at the home of Mrs. Tinsley. The ceremony will be performed in the Methodist church by Rev. T. J. Nixon, and inasmuch as the young lady has so many friends here it goes without saying that the church will be crowded upon this occasion.

Account of Confederate Veterans' reunion the Seaboard Air Line Railway will sell round-trip tickets to Louisville, Ky., at the rate of \$17.80, from June 10th to 13th inclusive, final limit to leave Louisville June 19th, 1906. Limit may be extended to leave Louisville as late as July 10 by depositing ticket with J. H. Richardson, special agent, Louisville, and paying 50 cents per ticket at time of deposit.

The Sun regrets to be compelled to call attention to the uncouth behavior of a certain class of young people who attend the evening services at the churches here on Sunday. At the Methodist church Sunday evening there was a quintette of young people who kept up a conversation and "giggling" during the entire service, which was annoying to those who happened to be so unfortunate as to secure seats in close proximity, for it was impossible for those who went to hear the sermon to understand more than half the eloquent minister had to say. If the young folks insist on talking and making conditions surrounding them provoking, they should remain at home and not trouble those who go to hear the Word of God delivered in an impressive manner.
